

Help Families at the House this Holiday Season

At Ronald McDonald House Charities of Western Washington & Alaska, we support seriously ill children and their families. You can bring these families comfort this holiday season by purchasing some of our wish list items:

Linens – When families check in, they are provided with all the linens they need to get settled quickly. Can you give a gift to help us purchase items like sheets, pillows, and towels for our residence rooms?

Craft Room Supplies – Our new Craft Room is a bright, welcoming space and is available for families to do projects together. We need to restock art supplies regularly. Check our Craft Room Wishlist to see how you can help.

Alaska Baby and Parent Items – Many of the families staying at our Alaska House come from remote communities and travel great distance to get care in Anchorage. Help us support them during their stay and send families off with essential newborn supplies by contributing to our Alaska Families Wish List.

Household – With more families staying with us, we need more of all the things that make the House comfortable and convenient for them. Check out our Seattle House Wish list for needed items.

Food Drives – We are stocking our pantries to serve more families. Gather your friends, family, or coworkers to put on a food drive and help fill the pantry for them.

Make a Meal – Knowing meals are provided at the House is an important comfort for families. You can help us make this happen by signing up to prepare a meal in our kitchens. It promises to be a rewarding experience and means so much.
